

Карточка профессионального профиля

Python Developer

Разработка серверной части веб-приложений и микросервисов на Python. Проектирование REST API, работа с базами данных, контейнеризация, CI/CD.

Показатели качества

Показатель	Значение
Полнота	0.0172
Непротиворечивость	0.4609
Применимость	0.5143
Согласованность источников	0.0

Компетенции профиля

№	Компетенция	Тип	Уровень	Релев.
1	Понимание REST API и микросервисов	skill	unspecified	0.617
2	maintain ICT server	skill	unspecified	0.584
3	manage ICT data architecture	skill	unspecified	0.575
4	Python (computer programming)	skill	unspecified	0.564
5	manage ICT project	skill	unspecified	0.548
6	web programming	skill	unspecified	0.538
7	manage ICT virtualisation environments	skill	unspecified	0.527
8	develop data processing applications	skill	unspecified	0.519
9	develop ICT workflow	skill	unspecified	0.512
10	Опыт работы с FastAPI и Django	skill	intermediate	0.505
11	deploy ICT systems	skill	unspecified	0.496
12	Filemaker (database management systems)	skill	unspecified	0.487
13	utilise computer-aided software engineering tools	skill	unspecified	0.484
14	ICT software specifications	skill	unspecified	0.481
15	establish data processes	skill	unspecified	0.479
16	execute ICT user research activities	skill	unspecified	0.478
17	design database in the cloud	skill	unspecified	0.474
18	Puppet (tools for software configuration management)	skill	unspecified	0.474
19	use software libraries	skill	unspecified	0.471
20	develop with cloud services	skill	unspecified	0.470
